Leppert
Your office evolution experts.

Since 1975 has been helping clients with their office technology and automation challenges.

Much has changed from the business started by Richard and Peggy Leppert, hence our slogan is 'Your Office Evolution experts'.

Equipment systems for print, copy or scanning, to mailing and folding solutions to more sophisticated scanning and capture systems for document capture and management are sold and serviced.

We operate a cloud-based document storage and management system called docUcapture and Leppert has been reliability certified as a scanning service by the Federal government.

Good opportunities for us are:

- Any clients printing/copying in colour or with equipment at multiple branch locations
- Anyone moving or relocating their offices, or looking to convert boxes of paper to digital content
- Someone looking for a better strategy for the 'war on paper' and looking to go paperless

If your office technology is not evolving it may be slowing you down and costing your more in manual processes and labour, start with a quick chat to see if we can help.
