Cowan Insurance Group is a Gold Standard winner of the 2017 Canada's Best Managed Companies awards.

Many industries have unique challenges and circumstances that make it impossible for a "one size fits all" approach to insurance to be effective and suitable. A customized insurance and risk management solution specific to your industry is the best practice.

For over 86 years, Cowan has been dedicated to developing in-depth knowledge of a wide variety of industries and have created customized risk management and insurance solutions that are tailored to meet the challenges your specific industry faces every day.

What sets Cowan apart is our commitment to clients; to ensuring that expectations are exceeded; to building long-term partnerships founded on trust and reliability. All programs benefit from our exceptional service and 24 /7 claims service.

We always welcome new program ideas and would like to hear from you. Contact us about your industry and operations and we'll work with you to develop a best-in-class solution that meets your needs.

Cowan Insurance Group's technology team understands that the technology landscape is constantly evolving and with change comes potential risk. We know that one size doesn't fit all, and you need a solution as unique as you are.

Cyber-Liability is one of the many services that Cowan offers.
